

Electrical Installation Trainer

Location: West Pokot County

Contract Type: Full-time- One-Year Renewable Contract

Perur Rays of Hope (PRoH), an implementation partner of **Global Give Back Circle**, is seeking a skilled and experienced Electrical Installation Trainer to deliver competency-based, industry-aligned training under the **HER Lab Program** in West Pokot County. The trainer will equip young women with practical electrical wiring skills that enhance employability and promote economic independence.

The role involves delivering high-quality, hands-on training through structured instruction, continuous assessment, and practical learning experiences. The trainer will also support participants in building confidence, professionalism, and technical competence required for the workplace.

In addition, the trainer will prepare trainees for certification through CDACC and other assessment bodies such as the National Industrial Training Authority (NITA) or Kenya National Examinations Council (KNEC), strengthen industry linkages to create exposure and employment opportunities, and ensure compliance with safety, quality, and regulatory standards.

The Electrical Installation Trainer will work under the Training department and report to the TVETA programming Assistant and Program Manager.

Duration: This is a full-time, on-site position based at HER Lab, West Pokot County, offered on a one-year contract, renewable

Key Responsibilities:

1. Training Delivery
 - Plan, prepare, and deliver comprehensive electrical wiring training sessions, ensuring they are engaging and aligned with the curriculum.
 - Teach participants both theoretical knowledge and practical skills in electrical wiring, including installation, repair, and maintenance of electrical systems.
 - Ensure the training program aligns with current industry standards and best practices.
 - Utilize a variety of instructional methods, including hands-on practice, demonstrations, and interactive activities, to facilitate learning.
 - Arrange for guest instructors and industry experts to deliver specialized training sessions.

2. Curriculum Development

- Assist in developing and updating the electrical wiring training curriculum delivery materials to ensure training meets industry standards and the needs of the participants.
- Create detailed training schedules, lesson plans, and instructional materials.
- Incorporate feedback from participants and stakeholders to continuously improve the training program.

3. Assessment and Evaluation

- Develop and administer assessments to evaluate trainee skills and knowledge.
- Offer additional support and guidance to participants who may need extra help or have specific challenges.
- Encourage and motivate participants to achieve their full potential and complete the training successfully.
- Provide regular feedback to trainees on their performance and areas for improvement.
- Maintain detailed records of trainee progress and performance.

4. Examination Preparation

- Prepare participants to undertake CDAAC examinations by familiarizing them with the exam formats and requirements.
- Conduct mock exams and provide study materials to help participants practice and improve their exam-taking skills.
- Monitor and evaluate participants' readiness for the exams, providing additional support where needed.

5. Industry Collaboration

- Build and maintain relationships with project teams, industry associations, and certification bodies.
- Facilitate and supervise on-the-job training opportunities and apprenticeships for trainees.
- Stay updated on industry trends and incorporate relevant changes into the training program.

6. Resource Management, Safety, and Compliance

- Ensure all training materials, tools, and equipment are available, well-maintained, and used safely during training sessions.
- Manage inventory of electrical wiring supplies and report any needs or deficiencies to the TVET Program Coordinator.
- Enforce safety standards and protocols to ensure a safe learning environment for all participants.
- Stay updated on industry regulations and best practices to ensure training content remains relevant and compliant with current standards.

7. Safeguarding & Ethics

- Uphold, including but not limited to HER Lab safeguarding, gender, and code of conduct policies.
- Report any safeguarding concerns through established reporting channels.

Qualifications:

- Diploma or degree in Electrical Engineering, Electrical Wiring, or a related field.
- Minimum of 3 years of experience teaching or training electrical wiring, preferably in a technical or vocational education setting, with a strong emphasis on installation, repair, and maintenance.
- Experience in preparing students for CDAAC examinations is highly desirable.
- Excellent communication and interpersonal skills, with the ability to engage and inspire participants.
- Strong organizational skills and attention to detail.
- Ability to work independently and as part of a team.
- Familiarity with the challenges and opportunities in arid and semi-arid regions is an asset.
- Certification by TVETA as a trainer/assessor.

Useful info:

- Since this position will be based at HER Lab in Morpus, West Pokot County, relocation flexibility is a plus.
- Application deadline; 22nd September 2026

We are committed to fostering a diverse and inclusive workplace as an equal opportunity employer. We strongly encourage individuals from all backgrounds to apply, with a particular emphasis on supporting applications from women and persons with disabilities.

How to apply: If you are interested in this opportunity, we invite you to submit your CV and cover letter through the email below:

admin@perurraysofhope.org cc: Vicky@perurraysofhope.org on or before 22nd September 2026, and include

- Updated CV
- Copies of academic and professional certificates
